Flux-Off® Flux Removers

Flux-Off products are specially formulated to remove all types of rosin (types R, RA, and RMA), no-clean, water-soluble and synthetic (type SA) flux. The type of flux to be removed, solvent compatibility and ease of application are all factors to consider when choosing the appropriate product. Flux-Off flux removers are available in aerosol, BrushClean System, and liquid form for vapor degreasers, spray systems, ultrasonics, and dip tank applications.

Product Selection Guide

	Primary Flux Residue Cleaned								Features				Cleaning Methods		
	Rosin Based*	No-Clean	SA-Synthetic	Water Soluble	Removes White Residue	Plastic Safe	Nonflammable	Dries Fast	VOC-EPA (Aerosol / Liquid)	Aerosol Spray	BrushClean™ System	Hand Cleaning	Vapor Degreasing	Ultrasonics	Immersion
Flux-Off® Tri-V	1	1	NR	✓	NR	✓	✓	95% / NA		✓	✓	✓	✓	✓	Strongest Cleaner
