HIGH PERFORMANCE SUPER GLUE

INNOVATION

Patented Delivery System Drip-Proof, Clog-Proof Applicator

- Stores longer than most super glues
- Glue won't clog or dry up after repeated use
- Precise and controlled application of glue
- Minimal clean up

Plastic Surgery® Super Glue

Formulated to bond plastics more securely than other glues. Plastic Surgery is engineered to bite into plastic materials.

Part No. SH-302 (3 gr)

Part No. 330-302 (3 gr - 36 pc counter display)

Super Glue

Fast setting adhesive that provides a strong, permanent bond to most non-porous materials such as metal, wood, glass, rubber.

Part No. SH-308 (10 gr)

Part No. SH-309 (3 gr)

Part No. 331-309 (3 gr - 36 pc counter display)

Thick Gel Formula

Plastic Surgery® Super Gel

Formulated to bond plastics more securely than other glues.

- Thick Gel, will not drip or sag
- Great for vertical applications

Part No. SH-304 (3 gr)

Value Pack

5 Star Super Glue 6 Pack

Fast setting adhesive that provides a strong, permanent bond to most non-porous materials such as metal, wood, rubber and plastic.

• Package contains 6 - 3 gram tubes

Part No. SH-350 (6-3 gr tubes)

Part No. SH-354 (4-3 gr tubes) **also available*

All American

Super Glue

Fast setting adhesive that provides a strong, permanent bond to most non-porous materials such as metal, wood, rubber and plastic.

- Value Pack - 2 - 3 gram tubes
- Made in U.S.A.

Part No. SH-325 (2-3 gr tubes)

Double Pack

Super Glue & Super Glue Gel 2 Pack

Fast setting adhesive that provides a strong, permanent bond to most non-porous materials such as metal, wood, rubber and plastic.

Part No. SH-375 **Glue** (2-2 gr tubes)

Part No. SH-376 **Gel** (2-2 gr tubes)

HIGH PERFORMANCE ADHESIVES

Multi-Purpose SureFlex® Adhesive
 SureFlex remains flexible, never becomes brittle.

- Multi-use
- Bonds and repairs hard plastics, metals, wood, tile, glass, china & more

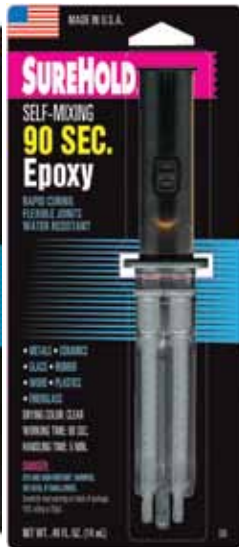

Part No. SH-360 (1 fl. oz.)

Polyurethane Python Glue®
 Python Glue is a high strength adhesive used to bond tough projects.

- Less foaming than other polyurethane glues
- Bonds wood, ceramic, stone and metal
- Can be sanded and painted

Part No. SH-352 (2 fl. oz.)
 Part No. SH-353 (1 lb.) *also available**

Industrial Strength 90 Second Epoxy
 A rapid-curing, two part, general purpose epoxy for projects that require instant adhesion.

- Water resistant, will not shrink
- All-purpose, use on metal, ceramic, glass, rubber, wood, plastics, fiberglass
- Gap filling, can be sanded and painted
- 14 ml syringe automatically mixes epoxy and resin during application

Part No. SH-335 (25 ml)
 Part No. SH-336 (14 ml) *self-mixing*

Automotive Rear View Mirror Adhesive
 Designed to bond a rear view mirror back onto the windshield.

- Extra Strength
- Permanent Bond

Part No. SH-340
 (Adhesive .3ml/Activator .6ml)

Anaerobic Threadlockers
 Keep nuts and bolts from coming loose due to shock and vibration. Resists leakage. Helps prevent rust and corrosion.

Medium Strength Blue

- Easy removal with hand tools

Part No. SH-482 (2 ml)
 Part No. SH-391 (10 ml)

High Strength Red

- Permanent strength, for assemblies that do not require frequent disassembly

Part No. SH-481 (2 ml)
 Part No. SH-390 (10 ml)

INDUSTRIAL CYANOACRYLATE ADHESIVES

INDUSTRIAL & COMMERCIAL GRADE ADHESIVES

Low Odor, Low Blooming

Cyanoacrylate Adhesive

- Excellent for use on applications where appearance matters
- Leaves little to no white residue when dry
- Eliminates frosting and odors
- Use on plastic, metal and rubber
- Use on electrical components, circuit boards, automotive applications, 3D imaging

Part No. SH-201 (20 gr)*

Surface Insensitive

Cyanoacrylate Adhesive

- Formulated to bond dry, porous and acid surfaces such as wood, paper-made products, PU foam, cork, rubber, fabric and ceramics
- Use for the assembly of difficult to bond substrates that require high strength

Part No. SH-601 (20 gr)*

Rubber Toughened

Cyanoacrylate Adhesive

- A rubber toughened, high viscosity adhesive for use where flexibility and vibration resistance is required
- For use in higher temperature and higher humidity environments
- Rapid fixturing time makes it ideal for construction work
- Works best on rubber, metal, wood, plastic

Part No. SH-B680 (20 gr)*

* Also available: 500 gr bottle
2 kg bottle

• See the SureHold Industrial Catalog for our complete line of Industrial Cyanoacrylate Adhesives
