100 Meter Roll

No Measuring Required!

MR5E-4P100-BL: FASTRAK350. Enhanced Category 5 Cable

UNICOM's FASTRAK350 Enhanced Category 5 cable is a 350 MHz powered wiring solution that can bring a whole new dimension to your network. Designed for high speed applications, the new cable provides Power Sum performance for any combination of transmission schemes. With a minimum

3 dB headroom, it meets and exceeds EIA/TIA 568-B.2 proposed Category 5 Enhanced standards.

Now you can connect applications such as Fast Ethernet, 155 Mbps ATM and higher with the speed and reliability of FASTRAK350. Your data will transfer faster and farther.

Features:

- *Enhanced Category 5 performance for next generation networking*
- *Meets and exceeds EIA/TIA 568-B.2 proposed Category 5 Enhanced standards*
- *Supports Fast Ethernet, 155 Mbps ATM and higher applications*
- *Power sum performance designed for any combination of transmission schemes*
- *Minimum 3 dB headroom*
- *Convenient 100 meter length means no measuring required!*

Specifications:

Impedance 100 +/- 15 Ohm
 AWG 24
 No. of Pairs 4
 Jacket type PVC
 Cable Type UTP, Solid

Standard
 Meets or exceeds EIA/TIA 568-B.2 proposed Enhanced Category 5 Standards

Performance:

Frequency	Attenuation	Pair to Pair NEXT	Power Sum NEXT	Pair to Pair ELEFEXT	Power Sum ELEFEXT	Return Loss
1.0 MHz	2	65.3	62	64	61	19
4.0 MHz	4.1	56.3	53	52	49	20.8
8.0 MHz	5.8	51.8	48	46	43	21.7
10.0 MHz	6.5	50.3	47	44	41	22
16.0 MHz	8.2	47.3	44	40	37	22
20.0 MHz	9.3	45.8	42	38	35	22
25.0 MHz	10.4	44.3	41	36	33	21.32
31.25 MHz	11.7	42.9	39	34	31	20.6
62.5 MHz	17	38.4	35	28	25	18.5
100.0 MHz	22	35.3	32	24	21	17.1
