

# NEW! Coast LED Lenser Focus Beam Flashlights

All the LED Lenser advantages,  
now with a focusing beam

Twist for narrow or broad beam

Tactical Focus Beam  
TT7438  
1.5-watt power 60.2 lumens  
85 hour battery life

V2 Focus Beam  
TT7845  
1.5-watt power 45.1 lumens  
34 hour battery life  
Available in silver as TT7846

Most LED flashlights can't provide a focusing beam. Coast LED Lenser can and does—in two configurations. Choose our standard battery powered V2 or Tactical Focus Beam or any of our Rechargeable Focus Beam flashlights.

- Choose powerful focused beam to see clearly at a distance or spotlight objects
- Choose a wider beam to illuminate larger area
- Unique, patented lens technology prevents dark spots when moving from concentrated to wide beam

- Up to 100,000 hours of service from LED
- Shockproof, water resistant
- Durable metal casing
- Lifetime Guarantee
- Focusable Prism Reflector System

## Rechargeable Focus Beam Lights

Coast LED Lenser Rechargeable Focus Beam flashlights offer you patented focusing technology and all its benefits, plus the savings and always-ready convenience of rechargeables.

- Long life, high power density
- 1000-time-recharge service life of batteries
- No "memory effect" that causes poor performance in some rechargeables
- Indicator light shows charge status and helps find the flashlight when power fails
- Recharging cradle can be wall mounted for easy access
- Includes recharger unit, batteries, and charger adapter

V2 3w Rechargeable Focus Beam  
TT7862 (black)  
5.62-watt power 79 lumens  
24 hour battery charge life

DigiTac Rechargeable Focus Beam  
TT7853 (black)  
3.2-watt power 65.3 lumens  
29 hour battery charge life  
Available in silver as TT7854
